

FBI, ATF, ISP, & Kentucky Explosive Group

PRESENTS

All Hazards Awareness Workshop **Chemical, Biological, & Improvised Explosives**

Attendees will receive lectures in the morning on the emerging threat posed by improvised explosives and WMD. After lunch, students will witness the detonation of a variety of improvised explosives, most of which can be mixed using common household chemicals. This demonstration is designed to underscore the potential danger of these chemicals, both in the hands of terrorists as well as juvenile experimenters.

When: March 31, 2014
8:00 AM – 4 PM

Where: Indiana University Southwest
University Center, Room 127
New Albany, IN

Due to the nature of the discussions, only approved personnel will be allowed to attend training (limited to 80 personnel). Attendance at both sessions is mandatory.
